

**NEWSWIRE | NEWS, EVENTS, & REVIEWS**

National License at the school's racing facility in Phoenix, Arizona. Drivers who compete in a minimum of two Bondurant Championship Race Series race weekends (four total races) will earn enough seat time to qualify for the SCCA National License. Under the direction of legendary racer Bob Bondurant and his team of instructors, participants will learn to improve their road racing skills from the same instructors used by hundreds of professional drivers from NASCAR, IndyCar, ASA and more.

The Championship Race Series, launched in September 2009, consists of 18 races over nine weekends utilizing three different tracks at Firebird International Raceway. Drivers compete in one of Bondurant's Formula Mazda race cars, which are powered by 13B Mazda rotary engines. Cost to participate in the Championship Race Series is \$3,495 per event, which includes car rental, instruction and maintenance of the

vehicle. Participants bring their own safety equipment, including suits, gloves, head and neck restraints. To learn more about participating in the Bondurant Championship Race Series and earning an SCCA license, visit its website at [www.bondurant.com](http://www.bondurant.com) or call (800) 842-RACE (7223) today.

### GOODYEAR'S NEWEST EAGLE FLIES ON 2011 CORVETTE

The Goodyear Tire & Rubber Company is announcing its newest ultra high-performance tire, the Eagle F1 SuperCar G:2, and its arrival is boosted by the achievement of an original equipment position on the 2011 Chevrolet Corvette Z06. The new Eagle F1 SuperCar G:2 builds upon a three-decade relationship between Goodyear and Corvette. For Corvette owners and other enthusiasts who demand the most from their performance automobiles, the Eagle F1 SuperCar G:2 is "street-refined, but

track-capable," according to Bob Toth, Goodyear's director of new products.

An asymmetric, directional tread design with massive tread blocks on the outboard shoulder help enhance dry cornering grip, while sweeping Aquachannel grooves on the inboard side of the tread help enhance wet cornering grip. An innovative multi-radius mold shape helps to offer precise handling and smooth, even wear. Even the appearance of the tire

# WE LOVE CORVETTES...

(And just about every other car out there, too.)

We've loved them just as long as you have- maybe even longer.

is important; a serrated band, sidewall styling and distinctive lettering add to the overall ultra-performance look.

The tire, tested on some of the most renowned road courses in North America, will be available this summer in these run-flat sizes: P275/35ZR18 and P325/30ZR19.

Goodyear is one of the world's largest tire companies. For more information about Goodyear tires, go to [www.goodyear tires.com](http://www.goodyear tires.com).

## MYCENTERFORCE.COM UP AND RUNNING!

Centerforce® has updated the [www.MyCenterforce.com](http://www.MyCenterforce.com) website. This site now runs Centerforce and user videos. Make comments, ask questions, or post your video on this site. Included are clutch tips, tricks, shop tours, racing, and more. If you have a video related to getting the most out of any vehicle, they would love for you to add it
